Gleason refused to pay his fine and will appeal the case. Gleason's friends are indignant over the convic-

tion of the ex-Mayor. They say that he was con-victed on a trumped-up charge made for the pur-pose of injuring his chances for the Mayoralty this fall, and that politics is at the bottom of the whole trouble. Some of the cooler lieutenants of the ex-Mayor Are talking of instituting impeachment proceedings against Justice Duffy, because ment proceedings against Justice Duffy, because the latter did not bring Frank Reidy and other members of the political club in Astoria to trial last fail. The crowds were pressing hard at the doors long after there was no more room inside the hall, when Mr. Bilss took his place at the front of the platform a few minutes after 8 p. m., nearly a quarter of an hour ahead of time. There was slience in the great hall when Mr. Blirs began to speak, but during his brief and effective speech the audience showed that there was no end of earmestness in the meeting. A reference which he made to the latest message of Governor Morton was greeted with a great shout and by hand-clapping. When he called for a vote on the selection of Mr. Larocque to preside over the meeting there was a chorus of "ayes," which showed that the audience had one mind on the The crowds were pressing hard at the doors showed that the audience had one mind on the

MR. BLISS SOUNDS THE KEYNOTE.

Mr. Bliss said;
Ladles and Gentlemen, Fellow Chizons: There is a theory, a tradition, that the Republican form of government emanates from the people, and is to be administered by and for the people. (Applause) But official human nature is pretty much the same in all systems of government, and many legislators with notable exceptions, when they have secured an election, make haste to forget that they are servants, and are too apt, in the sevinshon of legislative chambers and committee mones, to come to believe that the etemporary eminence to which they have been chosen has given to them the old mediacval divine right of kings or masters. When our servants get into that state of mind it really becomes necessary, using a common expression, "to call them down. 'Applause, Our legislature friends at Albany have just received a gentle reminder of their duties from our patriotic Governor (great applause), and we are all, I know, giad to be informed that one branch of the Legislature has heeded the message and hastened to pass one of the greatly needed measures of reform for which we have been waiting for a quarter of a year. (Applause.)

And we have assembled to night to ask in plain Mr. Bliss said:

(Applause.) The people of New-York ask nothing more; they will accept nothing else. (Loud applause.) The discussion of these questions here to night will be conducted by sument speakers, Rapublicans and Democrats and a requested by the Committee on Arrangements to nominate as chairman for this evening's proceedings Mr. Joseph Larocque, chairman of the Committee of Seventy. (Applause.) I have the pleasure of presenting te Larocque, chairman of the Committee of Sevency, (Applause.) I have the pleasure of presenting to you Mr. Joseph Larocque.

REMARKS OF THE CHAIRMAN. After the applause which greeted him had sub-

sided, Mr. Larocque spoke substantially as follows: Ladies and Gentlemen, Fellow Citizens of New-York: This gathering to-night, four months after the holding of an election, this full-house of intelli-gent faces, is an omen of most happy moments. It is an indication that the people of the city of New-York understand why they put a new administra-
